	and noted he intended to call Ken Young in the State Department	
	after the Deputies Meeting in order to determine whether a

	b. Raised the question of CIA's legal position in retaining employees who have reached the statutory age and required length of service for retirement. General Cabell said a case in point is a secretary now assigned to the Secretariat of USCIB, and suggested if we can legally do so she should be retained for a year, particularly in view of her knowledge of USCIB activities. Mr. Kirkpatrick said he believed Civil Service regulations in this regard are not binding on CIA in view of the Director's statutory authority to hire and fire. Col. White undertook to get an opinion on this matter from Legal Counsel and furnish his recommendations to DDCI.	
	Mr. Wisner:	
25X1	a. Noted he was seeing Amb. Rankin on Monday, 3 October. The Director suggested DD/P advise Rankin that: 1) in view of recent reports we have somewhat changed our thinking on the "longevity" of

programs had approved certain of these but within limit budget ceilings. A case in point he said was TSS which has now expended funds allotted for outside contracts and has requested guidance as to whether a request for additional funds or discontinuance of these contracts should come through the to the Director. Col. White noted that since the program in question had been approved by the it was his opinion that DD/P now has to decide whether he has funds within his area which can be allotted to continue these contracts. ACTION: DD/P and DD/S. Mr. Kirkpatrick: Noted that Sen. Mansfield has returned to Washington from his trip and asked the Director if he wished to see him. The DCI indicated that he did and asked the IG to arrange this appointment late next week. Mr. Wisner suggested that some of the area people be standing by and the Director approved. Col. White: a. Reported that the plans for the training base at are not yet ready for signature and it now appears that the construction will not be completed before 1 January 1957. Mr. Dulles remarked that he had always been a "little leery" of this project and asked if it was absolutely necessary that CIA go through with it.
